TO WHOMSOEVER IT MAY CONCERN

I feel pleasure to write this letter of recommendation for XXX (Student Name). He was a student in my department. I know him when he joined the department as a student of M. Sc. in the year 2013 and completed his M. Sc. in Industrial Chemistry in 2015. During this tenure of two years, I have taught him many courses: theory as well as practice ca l. I can say that Mr Patel is a hardworking, sincere and enthusiastic learner. He used to be regular and punctual in attending his classes and assignments.

Nature wise also, he i s having a friendly and helping nature. He was also active in various extracurricular activities during his tenure at the department.

Overall, I can say that Mr Patel i s a good human being and I strongly recommend hi m for the admission in your in statute. He will prove himself as a good student at your institute also. I wish him success for his future endeavors.
