## STATEMENT OF PURPOSE

Ever since my childhood I am a caring and empathetic nature and a vision of serving for mankind I would like to introduce me as xyz. In my school life, I have scored well in all my classes and all subjects including science, which had a greater impact on me and I realized that hard work is the only key to unlock all the dreams that I want to achieve. Briefing about my academic path I have completed 10<sup>th</sup> class and 12<sup>th</sup> class from G.S.H.S.E.B in 2012 and 2014, After that I have pursue bachelor in Medical Technology from Sardar Patel University and I have secured first class with Distinction in my bachelor degree. Since I had always dreamed of acquiring an international degree, I started found perfect destination for my studies and I chose UK is the best destination for my Master degree. Now I want to pursue my master from UK. Hence I have decided to Study Professional Health and Social Care MSc from York St John University, York.

After a thorough and meticulous research about several higher studies destination, i opted to pursue my higher academics at United Kingdom. UK has created a niche for itself as a safe, modern and advanced academic destination and its degrees are globally accepted. UK's tertiary education system is an epitome of scrupulous planning, excellence and futuristic accomplishments. UK follows unique teaching method which is more effective and demanded nowadays. This will make me skilled and competent professional to embrace the challenges and opportunities of the modern industry globally. The UK's teaching approach is not merely focused on providing education to students but to create future professionals. As a nation, UK and its residents have an extremely harmonious and convivial stance towards the international student community. This makes the students from myriads of ethnical backgrounds feel safe and at home.

I have chosen **York St John University** in York City Because university has an excellent faculty, flexible course structure, and most importantly a friendly atmosphere for International students. At the YSU, **York Campus** not only I found the course of my choice but I was also offered assisting services to advance and support education. The institution of higher education aim to provide with the intercultural, multidisciplinary, and upright understanding essential to lead prosper and participate in the global marketplace. From here I will be able to step out in the real world with extra ordinary expertise in the Professional Health and Social Care MSc. I will be provided with the benefits of skills and expertise knowledge of the experienced faculties and get a chance to learn and grow under their guidance. The University maintains high ethical standards in the conduct of the research. Thus, I chose to study at **York St John University, York Campus**. Through York Campus, I will develop skills that allow me to research, appraise, and innovate practice in order to improve health and social care.

I have selected **Professional Health and Social Care MSc** because it fits in perfectly with my career aims and I want to study perfect and all modules which are helpful for my career. The modules are Health Coaching and Behaviour Change, Multi-Professional Approaches to Long-Term Conditions, Modernising Services for Older People, Safety and Risk in Health and Social Care, Quality and Quality Improvement, Academic Practice in Higher Education, and many more. Social Care is a noble and humane profession which is for those people who are passionate about health and well-being and enjoy caring for people. I am therefore very clear that I will study **Professional Health and Social Care MSc** course overseas again to become successful and strong career. Studying overseas makes a person confident to face any challenge as one has to deal with students from various nationalities and it adds to the overall learning of student. I therefore decided to study at YSU, York Campus.

After studying this program I will also have an option to straightaway start my career as Paramedic, Nurse Practitioner, Nurse, Midwife, Occupational Health Nurse, Health Visitor and many more. Nurses are in high demand in all parts of this world and not only in India will I have employment opportunities globally with the growth prospects. Many top Medical hospitals in India and I am confident that my UK education will help me get employment in any of the star rated hospitals like Max Hospitals, Indraprastha Apollo Hospital, Fortis Hospital, Hiranandani Hospitals etc. Life form in a foreign country my priority would be to follow all the rules and regulation related to my student visa. On the completion of my course I will come back to my home country with master degree in professional healthcare & social care MSc.

Thank you for sparing your valuable time and reviewing my application.

**Thanking You,**
